DataFlowDiagram&UserStories

Date	17October2022
TeamID	PNT2022TMID11538
ProjectName	Project- Airlines Data Analytics for Aviation Industry
MaximumMarks	4Marks

DataFlowDiagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: DFD Level 0 (Industry Standard)
